

Assignment 2 :- Create your own wallet using Metamask for crypto transactions

Steps:

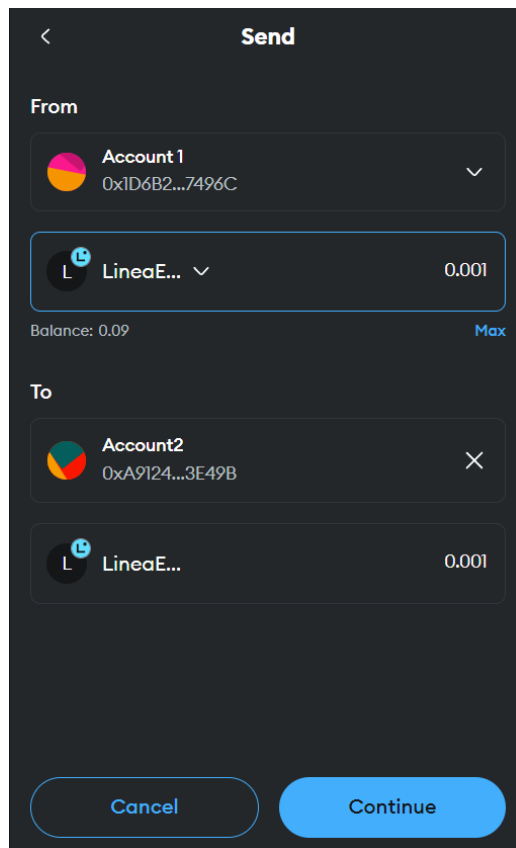

Create a new account for sending crypto tokens.

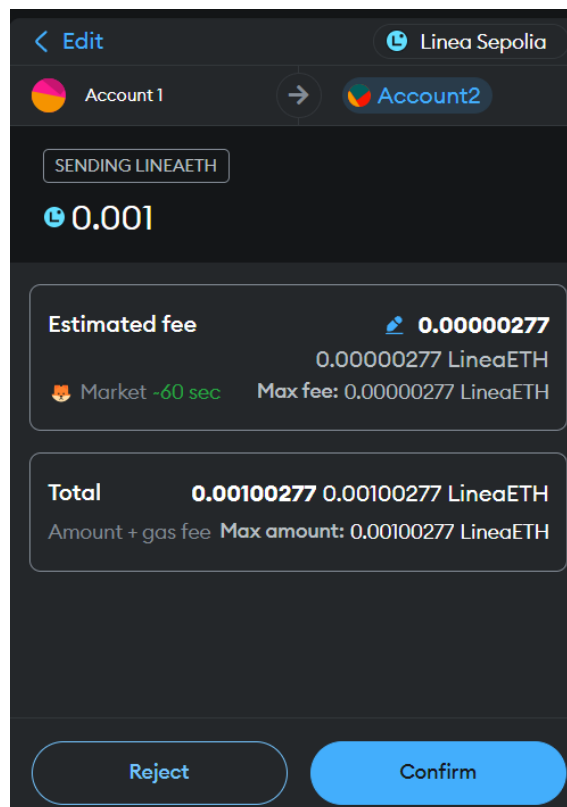

Account 2 has 0 tokens whereas Account 1 has 0.09 tokens.

Click on send and choose the account to send tokens to and add amount to sent.

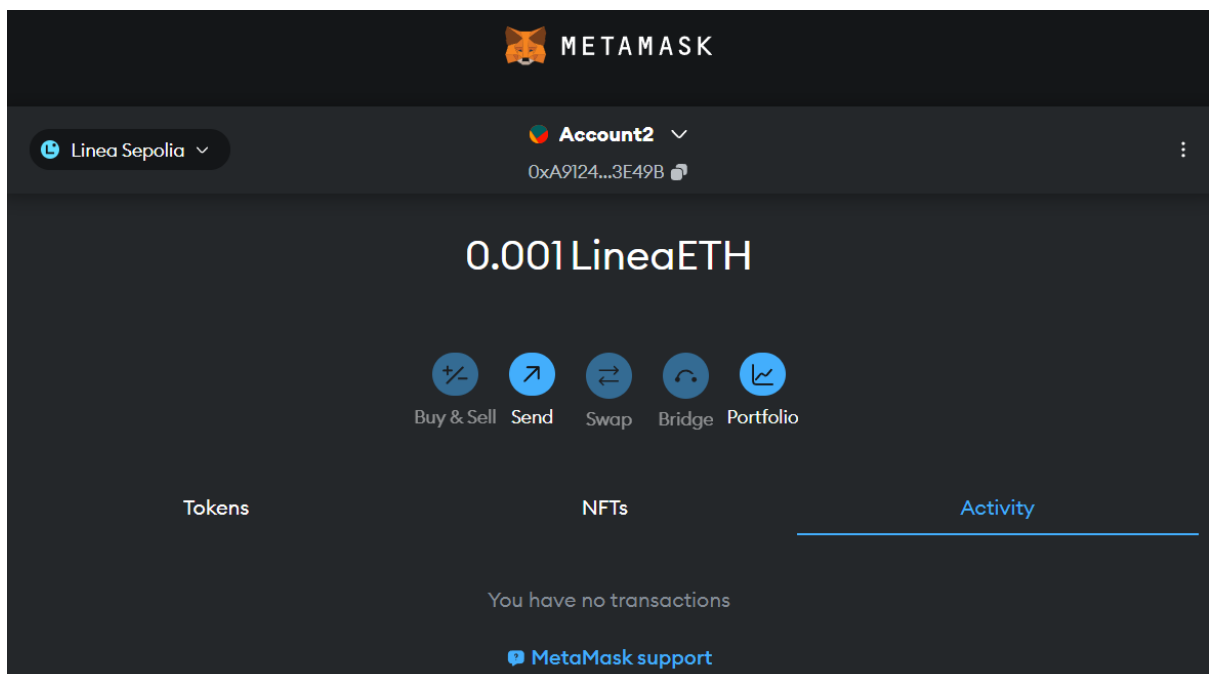

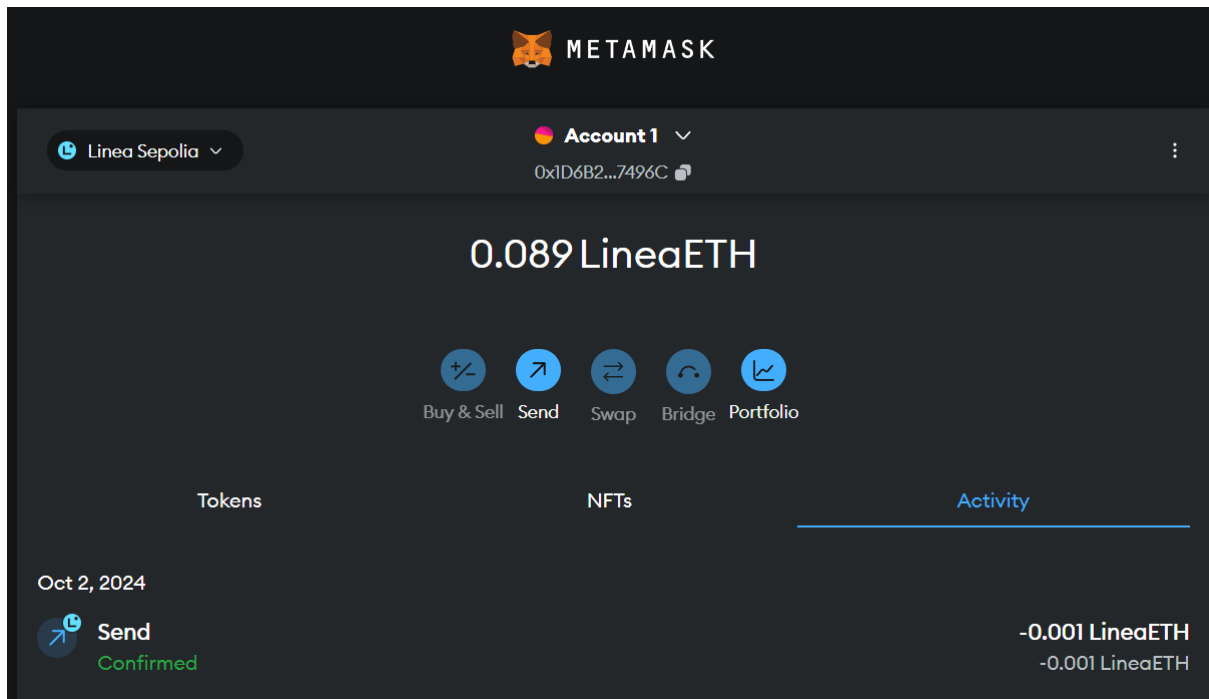

Click on continue, then click on confirm.

The transaction will take some time, till which its status will be Pending.

MetaMask will notify you once the transaction succeeds, also you'll be able to see the amount deducted from Account 1 and sent to Account 2.

View the transaction details on Etherscan.
